

B & A PLANT HIRE

Wet and dry plant hire solutions

2018 Case TR270 Tracked Skid Steer Loader.

Features include; a heavy duty - tilting 4in1 Bucket, tinted airconditioned cab, 80 channel two-way radio, EH controls – switchable between standard H and ISO control patterns, reversing camera, unmatched visibility from the operator's seat and ROPS/FOPS protective structure to name a few.

All of our machinery is setup to be compliant with the stringent safety and reliability requirements of modern-day job sites and as standard, our equipment is supplied with up to date maintenance records, plant risk assessments and electronic Operator's manuals. With wet hire jobs, we pride ourselves on our experienced, multi-skilled operators whom are appropriately licenced, and familiar with our equipment and attachments.

Available attachments for this machine include;

Tilting 4in1 bucket and heavy-duty spreader bar.

Chain Trencher - trench widths from 150mm to 300mm and up to 1200mm deep.

Pallet Forks.

Fieldquip 180T Hydraulic Slasher – 1800mm cutting width and while excellent finishes are achieved on grass, the attachment is also suitable for woody weeds and small trees like Lantana and Privet.

Hydraulic bucket broom.
