

B & A PLANT HIRE

Wet and dry plant hire solutions

2018 Case CX80C Hydraulic Excavator

Featuring a Calibre Power-tilt quick hitch, changing and tilting each attachment through 180 degrees of range is quick and easy, requiring no safety pin. Other features include a tinted airconditioned cab, 80 channel two-way radio, reversing camera and a ROPS/FOPS protective structure to name a few.

All of our machinery is setup to be compliant with the stringent safety and reliability requirements of modern-day job sites and as standard, our equipment is supplied with up to date maintenance records, plant risk assessments and electronic Operator's manuals. With wet hire jobs, we pride ourselves on our experienced, multi-skilled operators whom are appropriately licenced, and familiar with our equipment and attachments.

Available attachments for this machine include;

Standard kit of buckets - 1500mm batter bucket, 850mm GP bucket, trenching buckets - 600mm, 450mm, 300mm and ripper.

Augers – 300mm to 900mm and extensions capable of over 7 metres depth.

Rockbreaker.

Heavy duty Rock-grab.

Flail Mulcher – Capable of mulching hardwoods up to 200mm in diameter and perfect for lantana and privet control. Also capable of excellent finishes on grass on batters and in hard to reach locations.
