

B & A PLANT HIRE

Wet and dry plant hire solutions

2013 Case CX17B Hydraulic Excavator

Featuring adjustable tracks and a quickly removable ROPS canopy, this machine can readily be used in tight spaces down to 1.5 metres in height and under 1 metre in width.

All our machinery is setup to be compliant with the stringent safety and reliability requirements of modern-day job sites and as standard, our equipment is supplied with up to date maintenance records, plant risk assessments and electronic Operator's manuals. With wet hire jobs, we pride ourselves on our experienced, multi-skilled operators whom are appropriately licenced, and familiar with our equipment and attachments.

Available attachments for this machine include;

Standard kit of buckets - 1000mm batter bucket, trenching buckets - 450mm, 300mm, 150mm and ripper.

Augers – 300mm to 600mm and extensions capable of over 2.5 metres depth.

Rockbreaker.
